MESSAGE FROM CAASA

IT'S THE MEMBERS THAT MAKE IT HAPPEN

Since embarking on our endeavour less than one year ago, (on February 5th) we can say that it is the unwavering and constant support of our members that really makes it worthwhile and reminds us everyday as to why we created the Canadian Association of Alternative Strategies & Assets. Even the acronym, CAASA, is fitting as (we think), being inviting and friendly.

The alternatives industry in Canada and globally has undergone unprecedented growth and transformation over the last 10 years. Rising from the Great Financial Crisis, hedge funds have become more institutional and retail at the same time. Their infrastructure and risk attitudes have become more robust and 40 Act, UCITS, and Canada's recently adopted Liquid Alternatives legislation will allow true retail investors access to alternative strategies that use leverage, shorting, and derivatives to create their return stream. Much like the adoption of mutual funds in the 1990s, this is a game-changer for the industry.

Changes in how banks and other financial institutions measure and allocate risk, as well as how they might participate in the industry, has lead to more hedge/alternative strategy funds starting in Canada and a rise in the number and size of private lenders. Both areas of asset management have stepped into trades and sectors less-serviced or even abandoned by others.

Digital assets, including crypto-currency and up-stream to blockchain and distributed ledger technology uses, has become an area of expertise for Canada and we are happy to support this growing area as it creates asset management products (such as funds) and use cases (such as custody and trading) for Canadian and global markets and users.

In 2019 we will continue our commitment of service to all stakeholders in the industry. We have fifty events in the works (33 were organized in 2018) as well as various publications covering all areas of alternative strategies and assets.

To our members who participate in our nine working groups, and our membership at large, thank you for your confidence in our team, your invaluable efforts in our initiatives and programming, and your involvement in the industry and its progress in a time of challenges and change. Truly, it's the members that make it happen and we invite all to participate as much as you like and look forward to your ideas and input! Thank you.

ABOUT CAASA

INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 33 events in 2018 and at least 50 planned in 2019 (15 in the first 2 months alone). **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / crypto-assets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

MEMBER BENEFITS

Investors join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

Managers see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions, such as at this conference, where participation by the investors is strictly opt-in.

Service providers participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

AUGUST

PR FOR YOUR FUND: BEYOND PITCHBOOKS - MONTRÉAL - AUGUST 23

Goldman Communications' Corey Goldman paired up with **McMillan LLP**, this time in Montreal, to deliver his message about delivering one's message to potential clients. In essence, it's important to know how far investment returns can get you in getting noticed vs having an overall cohesive and compelling narrative to accompany performance.

Great brands are not built overnight, but they can fall in a short time as a crisis hits and it's a company's ability to pull itself out of a tail-spin by getting in front of (perceived) problems and, perhaps, make the situation into an opportunity.

Some revered brands started out tarnished, but pro-active steps were taken to make them more relevant to the market.

MÉCHOUÏ SUMMER SOCIAL (WITH THE EMB) - MONTRÉAL - AUGUST 23

The **Emerging Managers' Board**, along with a long list of sponsors, helped make the Montreal tradition at the Jamaica Pavilion at Parc Drapeau a huge success. 2019 EVENTS

&

INITIATIVES

Our mission is to support our members, the Canadian alternatives industry, and the broader global alternatives industry through a variety of programming, advocacy efforts, and working group initiatives such as member resources, thought leadership and educational publications, and effective gathering of groups with common interests.

MENTORSHIP PROGRAM

TIME-TESTED MODEL USED TO TRAIN NEXT GENERATION OF LEADERS

A special thanks to **Ron Cheshire** for working with us on this important program to bring together those who would like to take their personal growth and career to the next level with those who have been there. The key to this program is its focus on matching mentors and mentees as well as possible, bringing both of their strengths to the forefront during orientation, and allowing them, as professionals, to decide their schedule and how they will interact over the one year of contact.

Eligibility:

Mentor Group member: individuals employed CAASA members or with individual membership; should have 10+ years of experience in the industry

Mentees: individuals employed CAASA members or with individual membership; 4 - 6 years of industry experience

Mentors: individuals employed CAASA members or with individual membership or non-members; 10+ years of industry experience

Premise:

Mentorship, as opposed to coaching and other forms of guidance, is best performed between two well-matched individuals who have some level of experience (and maturity, as well as knowing what they want from the relationship) and participate in a comprehensive orientation that allows them to become an effective unit as quickly as possible.

Process:

In January to February 2019 CAASA will solicit applications for two parties: mentees and the Mentor Group. Mentees will provide background on themselves as well as permission from their employer to participate in the program.

The Mentor Group will consist of 6-8 individuals who will meet in March and April to match mentees with mentors. The Mentor Group is not required to take on a mentee (but can if they like); rather, they review the profiles and suggest mentors and meet with the prospective mentors to explain the program and, as applicable, get them on board. *The Mentor Group commitment is just 2 months.*

The Class of 2020 will begin on June 1, 2019, ending on May 31, 2020. All pairs will be part of a half-day orientation where they will learn about their roles and tasks, the program overall, and each others' strengths and talents. A follow-up session will occur in September. Each pair may schedule their meetings/chats as they like and they may be in-person or over the phone.

The main purpose of the program, for many mentees, is to learn key skills and perspectives that can help them in their jobs and careers over the next few years. Many have great technical skills, and to gain a promotion involving managing people, take on a more client-facing role in the company, or just do their current job better it sometimes takes some outside help from someone who has been there.

We hope this program, as it has been for almost a decade in Montréal, will be a boon for our members and their employees. *Members who might like to sponsor the small cost of this program are most welcome!*
