WELCOME TO OUR IN-DEPTH LOOK INTO ALL THINGS ALTERNATIVE

The CAASA Annual Conference brings together speakers and participants from public and private pension plans, sovereign wealth funds, foundations & endowments, single and multi-family offices, investment dealers, Canadian and global investment management houses, and affiliated service providers. Panels and sponsored table talks sessions will focus on key issues facing investors worldwide including structuring, legal & tax issues, IT and operational areas, and investments - including: hedge funds, CTAs, private equity, private lending, real estate, infrastructure, and crypto-assets/blockchain-related investments. All content is subject to Chatham House Rule.

ABOUT CAASA

INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 100+ events, including this conference, have occurred or are planned in 2020. **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / crypto-assets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

MEMBER BENEFITS

Investors join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

Managers see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions, such as at this conference, where participation by the investors is strictly opt-in.

Service providers participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

FORMATS FOR THE DAYS

A PLETHORA OF WAYS TO LEARN AND INTERACT

TÊTE-À-TÊTE MEETINGS

This is your opportunity to schedule one-on-one meetings with any conference delegate. All matching MUST be completed by end of day on Monday, November 2nd to ensure the scheduling software has time to confirm the meetings and each one is served up to you at the right time.

You can schedule as few or as many (up to 47, 15-minute meetings over the 3 days): each day November 3rd and 4th and all day (9am - 5pm) on November 5th. Over the years we received feedback that these are possibly the best part of our conferences as it gives folks an opportunity to connect away from the scheduled panels and meal times and really drill down into their respective interests. The software automatically suggests times that are mutually convenient for both parties.

Anyone can book a meeting with any other delegate. Please decline meetings that you might not be interested in or able to commit too - then the other party can invite another to chat. And if you are interested, you're free to connect via our messenger or ask for their email (we DO NOT release delegate contact information, so you'll have to ask for it or send yours along to them and await a response).

All meetings will be scheduled via the CAASA All-in-One Virtual Platform. Meetings must be completed by noon on Monday, November 2nd to ensure entry into the virtual room.

TABLE TALKS

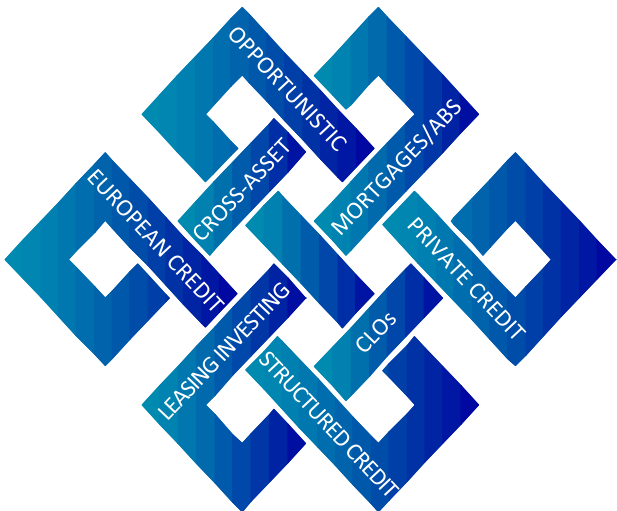

We do not sell paid-for speaking spots, preferring delegates to choose when they might like to hear from sponsors. Table Talks are 20-minute sessions where anywhere from 2 to 30 delegates can get a briefing on a topic and participate in an interactive discussion. As with all of our events, we refrain from pay-to-play and draw all speakers from membership and prefer audiences to opt-in to more niche discussions, as will be delivered at the Table Talks.

Attendees can choose up to three sessions out of each of the 10 offered on November 3, 4, and 5. **Titles/topics of each session will be published on the CAASA All-in-One Virtual Platform, also where attendees will register for their desired sessions. This must be completed by noon on Monday, November 2nd to ensure entry into the virtual room.**

FORGING INVESTOR PARTNERSHIPS IN ALTERNATIVE CREDIT

Napier Park is a \$13.7bn independent alternative asset management firm focused on investment opportunities in alternative credit. Strategies range from credit funds covering all major US and European markets with AUM of \$5.4bn, a CLO platform with \$6.6bn under management, to Private Equity and Leasing strategies managing \$1.8bn of capital. The senior team have spent over ten years developing the firm to take advantage of the post-crisis world of intermittent liquidity and volatility driven by regulatory change. Investors look to Napier Park for uniquely-packaged credit exposures that offer an attractive absolute return while structurally limiting downside risk.

TWO NEW MEMBERSHIP CATEGORIES

GLOBAL PARTNER

As we continue to innovate in an effort to bring more value to members than ever before, we added an additional exposure category for select members: Global Partner.

These members, starting with CEOS Family Office, an MFO headquartered in Montréal and offering a complete suite of services to families, will be featured prominently at all three of our signature conferences: *CAASA Annual Conference*, *Family Office Summit*, and (new in 2021) our *Wealth Managers' Forum*, as well as our Founding Day Drinks typically held near our anniversary on February 5.

As is our tradition, we treat all members equally for our speaking opportunities (191 in 2019 and more than 100 in Q2 2020 alone) and Global Partners are afforded the same propensity to speak on and moderate panels and participate in podcasts.

Any CAASA member this is interested in becoming a Global Partner should contact the CAASA office.

(START-UP) FOUNDER

We have had a great deal of interest from start-up founders to be involved with our events and initiatives over the last few months - especially as we are active in the family office / angel network and venture capital funds.

To this end, we have created a Founder category to cater to this type of member. We will also feature Founder members on our panels and podcasts and organize special events for them to connect with funding sources and source best practices and great ideas from peers and others.

The intent is to work with true start-ups and give them access to great content and connections and CAASA reserves the right to require certain companies that might be better categorized as managers or service providers - especially if they might be considered mature or with substantial backing - to be so categorized and pay the relevant fee.

OFFERING MEMORANDUM PROCESSING

We have partnered with CAASA member, DealMaker, to deliver a transformative solution to our Fund Manager members.

DealMaker is a digital platform that offers Fund Managers a better way to process OM transactions. Conducting OM transactions on DealMaker saves Fund Managers significant time and money. The platform supports an additional wide range of issuer transactions. DealMaker transforms the sale of private securities into an efficient online process.

DEALMAKER

DealMaker offers the option of fund collection, providing a one-stop solution for investors. Investors on DealMaker benefit from the speed and convenience of signing online with e-signature. DealMaker eliminates the hassle of having to print, sign, scan, correct, and send reams of paperwork. Issuers and managers benefit from gaining access to a portal that tracks the signing process of all documents, investors, and advisors on the platform, using real-time data.

CAASA members receive a 30% discount on DealMaker. Contact info@dealmaker.tech to receive complete pricing and more information. We are not receiving any compensation for this partnership and offer all savings to our members.

FOUNDER, ANGEL, & VC PLATFORM

We are also working with Knightley.co to offer their virtual dataroom to our members engaged in the start-up (pre-seed, seed, & pre-Series A) stage.

Knightley

This service is a well-thought platform where start-up founders can display their business idea (including a video introduction) to potential funders. With a plethora of information that can be uploaded, founders control what investors see, allowing access to more intrusive documents as they see fit.

Investors can scroll through ideas and companies and see their key metrics (e.g., sales, locations, SKUs) and set a reminder for when that metric meets their interest requirements.

This is a powerful, new platform that CAASA SFO and Founder members have a free 30-day trial of and a 40% discount off the monthly price when they subscribe for a year. CAASA does not receive compensation from Knightley in any way - we give it to you!

VIRTUAL CAASA ANNUAL CONFERENCE - 2020 | 15

SUMMIT POLICIES

PRIVACY & SECURITY

Typically, we do not release the names of individuals attending CAASA events - including to sponsors and speakers at events - although we may disclose the employers of attendees, except for those working at single family offices which are redacted. For this gathering, of course, all delegates have access to the individuals' names and employers for the purpose of scheduling meetings and booking seats at Table Talks. However, **we never release the email addresses or phone numbers of attendees**; asking instead that folks reach out via the mobile app / web portal or other means such as corporate websites or services such as LinkedIn. We can pass on contact requests to another party, without any guarantee of a response.

To ensure the security of information and views expressed during the summit panels and other sessions, we use a scheduling platform that integrates pre-recorded and live video so that all attendees can easily connect during the tête-à-tête sessions, Table Talks, and plenary times. Since attendees will be identified as their login name for each session, **if we see duplicate names or believe another person is using a delegate's login, we will terminate transmission and investigate - and ask attendees to let us know if they see something suspicious.**

All tête-à-têtes and Table Talks will not be recordable via the site and all plenary sessions will only be broadcast live. Recordings of any of the proceedings will not be released post-event in order to keep the live-feel of an in-person event and ensure that potentially sensitive information inadvertently communicated does not go further. **All of our sessions are strictly Chatham House Rule** and we ask all delegates to refrain from using screenshots and other archival methods as well as not tweeting or using other social media concerning any of the speakers, topics, or information communicated. Any communication should be broad and general and have absolutely no attribution of any notions to any speaker. If one wishes to use social media about the Family Office Summit generally, **our preferred hashtag is #FOS2020.**

New Focus on Private Debt Valuation Amid the Pandemic

Our global enterprise hosted a May 2020 virtual roundtable to discuss current practices for valuing private credit strategies in the midst of rising economic and market uncertainty brought on by the COVID-19 pandemic.

How is COVID-19 Affecting Private Credit Valuations?

- Valuation questions are at the forefront at private credit firms, particularly those active in illiquid, hard-to-value markets.
- The relatively stable environment for subscriptions and redemptions is likely to change and asset managers could expect greater scrutiny.
- Many have preferred a simpler model based on yield adjustments, using current and historical objective inputs where possible.
- The use of amortized costs as a proxy for impairment is another area where people are reflecting on current approaches.

VIRTUAL CAASA ANNUAL CONFERENCE - 2020 | 17

SPECIAL SPEAKERS

DR. GUNTER MEISSNER, PhD **ADJUNCT PROFESSOR OF MATHEMATICAL FINANCE** **COLUMBIA UNIVERSITY & NYU**

After a lectureship in mathematics and statistics at the Economic Academy Kiel, Gunter Meissner PhD, joined Deutsche Bank in 1990, trading interest rate futures, swaps, and options in Frankfurt and New York. He became Head of Product Development in 1994, responsible for originating algorithms for new derivatives products, which at the time were Lookback Options, Multi-asset Options, Quanto Options, Average Options, Index Amortizing Swaps, and Bermuda Swaptions. In 1995/1996 Gunter Meissner was Head of Options at Deutsche Bank Tokyo. From 1997 to 2007, Gunter was Professor of Finance at Hawaii Pacific University and from 2008 to 2013 Director of the Master in Financial Engineering Program at the University of Hawaii. Currently, he is President of Derivatives Software and Adjunct Professor of Mathematical Finance at Columbia University and NYU.

Gunter Meissner has published numerous papers and five books on derivatives and risk management. His six's book on "Forecasting – 10 Methods" will come out in 2020.

DR. DEBRA THOMPSON, PhD **ASSOCIATE PROFESSOR OF POLITICAL SCIENCE** **MCGILL UNIVERSITY**

Dr. Debra Thompson is an Associate Professor of Political Science at McGill University. She is a leading scholar of the comparative politics of race, with teaching and research interests that focus on the dynamics of racial inequality in democratic societies. Dr. Thompson's award-winning book, *The Schematic State: Race, Transnationalism, and the Politics of the Census* (Cambridge University Press, 2016) is a study of the political development of racial classifications on the national censuses of the United States, Canada, and Great Britain. The book maps the changing nature of the census from an instrument historically used to manage and control racialized populations to its contemporary purpose as an important source of statistical information, employed for egalitarian ends.

Her research has also appeared journals such as in the *Canadian Journal of Political Science*, *South Atlantic Quarterly*, *Social and Legal Studies*, and *Ethnic and Racial Studies*, among others. Dr. Thompson previously taught at the University of Oregon and Northwestern University, and held a SSHRC postdoctoral fellowship with the Center for American Political Studies at Harvard University in 2010-2011.

SPECIAL SPEAKERS

SHERYL KING **ADVISOR TO THE GOVERNOR** **BANK OF CANADA**

Sheryl King was appointed as Advisor to the Governor, representing the Bank of Canada in its New York Office, effective 5 July 2016. She is responsible for promoting and strengthening ties between the Bank and the financial community in New York, with an emphasis on financial market and financial stability developments.

Before assuming this role at the Bank, Ms. King was Managing Director North America and Global Quantitative Research at Roubini Global Economics since 2014. From 2009 to 2012, she was Chief Economist and Strategist at Merrill Lynch Canada. From 2004 to 2009, she was Assistant Chief US Economist at Merrill Lynch in New York.

Prior to that, Ms. King worked as a U.S. macro forecaster and as a bond and currency strategist at TD Bank. Earlier in her career, she spent eight years at the Bank of Canada, first as an economist and later as an analyst in the Bank's Financial Markets Department.

Born in Montreal, Ms. King holds a BA in economics from Concordia University and an MA in economics from Carleton University.

Kirk Sims, CFA

Senior Investment Manager - Head of Emerging Manager Program

Teachers' Retirement System of Texas

Kirk Sims heads TRS' Emerging Manager Program. Since being established in 2005, TRS has committed \$3.7 billion to one of the largest programs of its kind. An additional \$2 billion has been invested directly with EM Program graduates. Each graduate was selected as a result of consistent outperformance among a group of more than 160 EM managers. Recognizing the Program's success, in early 2019, TRS rolled out a plan to invest another \$3 billion over the next three to five years.

Sims joined the Teacher Retirement System of Texas on March 1, 2019. Before joining Texas Teachers, he was a Senior Investment Officer for the Teachers' Retirement System of the State of Illinois. Sims had oversight and management responsibility of TRS's Emerging Manager Program, a \$750 million evergreen pool of capital designed to identify and invest in emerging investment managers across all asset classes.

Prior, Sims worked at Prudential Retirement where he was responsible for a manager of manager's retirement platform as well as an open architecture investment platform. He also has a background in asset management and has held various positions with both large and small asset managers.

Sims is a CFA charterholder and holds a Masters in Business Administration from the Columbia University Graduate School of Business. He received a Bachelor of Business Administration from Howard University in Washington, D.C.
