OUR WORLD RUNS ON ALTERNATIVE PERSPECTIVES

Knowing where the world is headed is half the battle - the other part is being able to pull together one's capabilities and preparing and executing one's plan while adapting to constant change. This conference is designed to equip attendees with all of these areas: learning the perspectives of peers and leaders in the industry and how they are creating proactive paths forward as well as contingencies should - as they will - circumstances change. Alternatives, of course, are a big part of this given their convexity, non-linearity, and path-dependent outcomes: all characteristics that can assist asset owners to a more fulsome response to their internal requirements and constraints as well as an ever-changing investment and impact environment. All content is subject to Chatham House Rule.

ABOUT CAASA

INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 45+ events, including this conference, have occurred or are planned in 2019. **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / crypto-assets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

MEMBER BENEFITS

Investors join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

Managers see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions, such as at this conference, where participation by the investors is strictly opt-in.

Service providers participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

FORMATS FOR THE DAYS

A PLETHORA OF WAYS TO LEARN AND INTERACT

TÊTE-À-TÊTE MEETINGS

This is your opportunity to schedule one-on-one meetings with any conference delegate. All matching MUST be completed by end of day on Monday, June 7th to ensure the scheduling software has time to confirm the meetings and each one is served up to you at the right time.

You can schedule as few or as many (up to 43, 20-minute meetings over the 4 days): each morning JUNE 8th, 9th, and 10th and all day (8am - 6pm EDT) on June 11th. Over the years we received feedback that these are possibly the best part of our conferences as it gives folks an opportunity to connect away from the scheduled panels and meal times and really drill down into their respective interests. The software automatically suggests times that are mutually convenient for both parties.

Anyone can book a meeting with any other delegate. Please decline meetings that you might not be interested in or able to commit too - then the other party can invite another to chat. And if you are interested, you're free to connect via our messenger or email (we do not release delegate emails or other contact information, so you'll have to ask for it or send yours along to them and await a response).

All meetings will be scheduled via our conference app and web portal. Meetings must be completed by noon on Monday, June 7th to ensure entry into the virtual room.

TABLE TALKS

We do not sell paid-for speaking spots, preferring delegates to choose when they might like to hear from sponsors. Table Talks are 20-minute sessions where anywhere from 2 to 30 delegates can get a briefing on a topic and participate in an interactive discussion. As with all of our events, we refrain from pay-to-play and draw all speakers from membership and prefer audiences to opt-in to more niche discussions, as will be delivered at the Table Talks.

Attendees can choose up to three sessions out of those offered on Day 1, 2, and/or 3. **Titles/topics of each session will be published on our conference app and web portal, also where attendees will register for their desired sessions. This must be completed by noon on Monday, June 7th to ensure entry into the virtual room.**

SUMMIT POLICIES

PRIVACY & SECURITY

We do not release the names of individuals attending CAASA events - including to sponsors and speakers at events - although we may disclose the employers of attendees, except for those working at single family offices, which are redacted. For this gathering, of course, all delegates have access to the individuals' names and employers for the purpose of scheduling meetings and booking seats at Table Talks. However, **we never release the email addresses or phone numbers of attendees**; asking instead that folks reach out via the mobile app / web portal or other means such as corporate websites or services such as LinkedIn. We can pass on contact requests to another party, without any guarantee of a response.

To ensure the security of information and views expressed during the summit panels and other sessions, we use a scheduling platform that integrates pre-recorded and live video so that all attendees can easily connect during the tête-à-tête sessions, Table Talks, and plenary times. Since attendees will be identified as their login name for each session, **if we see duplicate names or believe another person is using a delegate's login, we will terminate transmission and investigate** - and ask attendees to let us know if they see anything suspicious.

All tête-à-têtes and Table Talks will not be recordable via the site and all plenary sessions will only be broadcast live. Recordings of any of the proceedings will not be released post-event in order to keep the live-feel of an in-person event and ensure that potentially sensitive information inadvertently communicated does not go further.

All of our sessions are strictly Chatham House Rule and we ask all delegates to refrain from using screenshots and other archival methods as well as not tweeting or using other social media concerning any of the speakers, topics, or information communicated. Any communication should be broad and general and have absolutely no attribution of any notions to any speaker.

OUR DATAROOM

ALL THE DATA REQUIRED TO MEET YOUR (INVESTMENT) MATCH

At the suggestion of one of our single family office members, we partnered with **SigmaSandbox** to create a dataroom to provide a more robust experience for managers and investors by getting performance and other information into the hands of prospective investors. We believe this free offering, exclusive to CAASA members, can be used in advance of the conference, during it, and afterward as much as one might like.

FOR INVESTORS

Simply create a login and you can search the database, choose any number of funds, introduce them into a portfolio approximating yours (more than 2,500 ETFs and 115 indices to choose from) to see how they might have affected its returns, and/or download tear-sheets of the fund to get portfolio and other data on it, the manager, and whom to contact to get more information. You can also use this to research managers who have invited you to meet or, if you like, extend your own invitations for a tête-à-tête (more on these on subsequent pages).

FOR MANAGERS

Uploading your performance and other information gets you on the radar of delegates at the conference and, as **SigmaSandbox** and CAASA will be making this available to more than 1,000 endowments, other significant investors, and wealth managers across North America and around the world with our ongoing events and those held in concert with other associations and the Government of Canada. It is simple and easy to do so and sets your fund apart with the opportunity to have many investors see how well you manage funds entrusted with you.

HIGHLIGHTED MEMBERSHIP CATEGORIES

GLOBAL PARTNERS

As we continue to innovate in an effort to bring more value to members than ever before, we added an additional exposure category for select members: Global Partner.

These members, including **CEOS Family Office** and **Napier Park Global Capital**, are featured prominently at three of our signature conferences.

As is our tradition, we treat all members equally for our speaking opportunities (191 in 2019 and 470 in 2020) and Global Partners are afforded the same propensity to speak on and moderate panels and participate in podcasts.

Any CAASA member this is interested in becoming a Global Partner should contact the CAASA office.

(START-UP) FOUNDER

We have had a great deal of interest from start-up founders to be involved with our events and initiatives over the last few months - especially as we are active in the family office / angel network and venture capital funds.

To this end, we have created a Founder category to cater to this type of member. We will also feature Founder members on our panels and podcasts and organize special events for them to connect with funding sources and source best practices and great ideas from peers and others.

The intent is to work with true start-ups and give them access to great content and connections and CAASA reserves the right to require certain companies that might be better categorized as managers or service providers - especially if they might be considered mature or with substantial backing - to be so categorized and pay the relevant fee.
