INVESTMENT MANAGEMENT

ABOUT CAASA

INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 65 webinars in 2021 and at least 70 planned in 2022 + 4-6 full-scale conferences each year. **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / cryptoassets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

MEMBER BENEFITS

Investors join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

Managers see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions where participation by the investors is strictly opt-in.

Service providers participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

Founders participate in our Founders' Pitch Competitions as well as other initiatives created to propel their fledgeling businesses forward.

NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

WHY JOIN?

As mentioned, we have attracted 330+ members over the last 4 years or so and the reasons are plentiful and varied. Whether an investor, manager, or service provider, some seek a group of like-minded individuals in the alts space to connect with on an on-going and (semi-)structured basis; others have a more commercial interest in that they are intent upon being aware of the newest trends in the industry and (providing they have one) presenting their knowledge to an audience of peers; and others have made their mark (or are on their way to doing so) and really just want to give back to a group of people that has done a great deal for them.

Whatever your motivation, if you're not in membership yet we'd love to hear from you!

WELCOME TO OUR IN-DEPTH LOOK INTO FAMILY OFFICE ISSUES

The CAASA Family Office Summit brings together speakers and participants from single and multi-family offices, investment dealers, Canadian and global investment management houses, and affiliated service providers. Panels and break-out sessions will focus on key issues facing family offices in Canada and elsewhere including structuring, legal & tax issues, IT and operational areas, and investments - including: hedge funds, CTAs, private equity, private lending, real estate, infrastructure, and crypto-assets/blockchain-related investments. All content is subject to Chatham House Rule.

TÊTE-À-TÊTE MEETINGS

This is your opportunity to schedule one-on-one meetings with any conference delegate. All matching MUST be completed by end of day on Monday, May 2nd to ensure the scheduling software has time to confirm the meetings and each one is served up to you at the right time.

You can schedule as few or as many (up to 33, 15-minute meetings over the 3 days): each afternoon on May 3rd & 4th, and the morning of the 5th. Over the years we received feedback that these are possibly the best part of our conferences as it gives folks an opportunity to connect away from the scheduled panels and meal times and really drill down into their respective interests. The software automatically suggests times that are mutually convenient for both parties.

Anyone can book a meeting with any other delegate. Please decline meetings that you might not be interested in or able to commit too - then the other party can invite another to chat. And if you are interested, you're free to connect via our messenger or email (we do not release delegate emails or other contact information, so you'll have to ask for it or send yours along to them and await a response).

All meetings will be scheduled via our conference app and web portal. Meetings should be completed by noon on Monday, May 2nd to both parties accept the meeting. Delegates are free to have ad hoc chats as well, of course, during the course of any of the days at the venue.

TABLE TALKS

We do not sell paid-for speaking spots, preferring delegates to choose when they might like to hear from sponsors. Table Talks are 25-minute sessions where anywhere from 2 to 12 delegates can get a briefing on a topic and participate in an interactive discussion. As with all of our events, we refrain from pay-to-play and draw all speakers from membership and prefer audiences to opt-in to more niche discussions, as will be delivered at the Table Talks.

Attendees can choose up to two sessions out of those offered on Day 1 & 2. **Titles/topics of each session will be published on our conference app and web portal, also where attendees will register for their desired sessions. This should be completed by noon on Monday, May 2nd to ensure a table is not fully-booked, or delegates can simply sit at any of the open tables at those times.**

Laughren , Laughren Group <i>Life as the principal of a family office can be exciting, inspirational, and busy, while at the same time worrisome, stressful, and draining. We provide this (strictly!) family members only dinner as an opportunity to meet with your peers and share questions, concerns, solutions, and insights across the table. We have nominated three leaders/instigators to get things going and guarantee that all will find the evening illuminating and fun.</i>
6:00 PM	Single Family Office Roundtable - Professionals Only Jason Granger , Fipke Group Enzo Gabrielli , Horizon Capital Holdings Scott Morrison , Wealhouse Asset Management <i>Working in a single family office is not your typical investment management job – you gain the benefit of a sometimes extremely flat organizational structure and many find the spectrum of duties and tasks to be (very) intellectually stimulating. On the other hand, it can be isolating and difficult to keep up with the pace of work: each family has its own dynamic and cadence so we created this dinner where (strictly!) full time employees (not relatives) of SFOs can interact with their peers to get the most out of their roles.</i>
8:00 PM	End of Dinners & Day 1 for All

EXCLUSIVE SFO DINNERS

TUESDAY, MAY 3rd

EXCLUSIVE SESSION FOR SFO FAMILY MEMBERS

Feedback from previous events guide us in creating future programming, and this session is no different. We have created a time where just the relatives / family members of single family offices can discuss areas of interest to them, lead by a team of three of their peers.

Participants can speak as much as they like, knowing that ONLY their peers are with earshot - managers, service providers, and professionals at SFOs (they have their own session) and all others are not a part of this Zoom room - and we hope to hold an In Real Life one soon as well!

If you are an SFO relative and not registered for this session (it is a special invite and we have limited capacity to the room), please let CAASA staff know and we will add you to the list!

This year's three leaders/instigators are from Vancouver, Montréal, and New York and each brings with them a varied family history and view on investing and interacting with their other relations as their family trees evolve over the years.

Topics on offer include:

- Managing requirements, preferences, and expectations of family members
- Succession planning
- Tips from the trenches: ways their families have exploited arbitrages and structures to make the most of what they have
- Working with internal and external advisors and asset managers
- Estate and will planning issues (and solutions)
- Retaining one's entrepreneurial edge
- Philanthropy & giving

If you are an SFO professional and not registered for this session (it is a special invite), please let CAASA staff know and we will add you to the list (capacity is limited).

Welcome to the new ‘new normal’

In our new environment, investors have two choices – adapt or continue with the status quo and hope for the best.

In a world of rising interest rates, investors are faced with a new set of challenges. We offer solutions predicated on three simple beliefs.

- Investment-grade credit offers investors attractive value.
- Index tracking, restrictive mandates, and regulations create structural inefficiencies in an opaque bond market.
- Capital preservation is paramount to long-term success.

Contact us to see how we can help you navigate the new ‘new normal’.

DAY 2 AGENDA

WEDNESDAY, MAY 4th

8:00 AM	Breakfast & Keynote - Domiciling Your Digital Assets TBC, Stonehage Fleming <i>There is no denying that digital assets have created a great deal of wealth for a growing number of investors and maths/coding enthusiasts - but how can families ensure that, like all of their assets, they are in the right domiciles and structures to ensure they have the most advantageous tax and legal treatment? This chat will cover a (real life) case study of this sort of situation from an expert in the field.</i>
9:00 AM	NowTalk – Easy Alpha – Class Action Services Bob Williamson, Battea Class Action Services <i>Every investor knows that we are in a litigious world and securities settlements are growing each year as classes of security-holders seek relief via the courts. Obtaining a judgement is only part of the process, though. One must prove their holding and file their paperwork in a prescribed manner by the due date in order to receive their due amounts. Class action services specialize in ensuring maximum benefit, for a contingency fee. They can also uncover monies otherwise unknown to investors by surveying their portfolio for relevant tickers and holding periods.</i>
9:30 AM	Real Estate for Good Jason Campbell, Eckler Funke Okubadejo, Actis Jonathan Turnbull, Harrison Street Erik Dmytruk, Slate Securities <i>Possibly the oldest investment, real estate has long provided a roof over one's head, and a place to work, play, and shop/etc. One drawback is the incredible amount of energy and carbon-producing materials and processes that are required for its construction and maintenance. This panel investigates the many ways that we can make use of this essential asset while ameliorating its potential negatives.</i>
10:30 AM	Morning Coffee Break
10:45 AM	Tête-à-tête meetings (4 x 15-minute 1:1 meetings)
11:45 AM	Financing the Future & Providing Private Yield Athas Kouvaras, Richter Family Office Dev Gopalan, Sagard Holdings Theresa Shutt, Fiera Private Debt Daniel Leger, MGG Investment Group <i>Private Lending has grown immensely over the last few years – not least because of low interest rates, but also with a growing openness of regulators to provide vehicles active in this area and investors coming to understand the risks and returns on offer in these securities. Our learned panel will illuminate some lesser-known areas as well as mainstream sectors that deserve attention.</i>

DAY 2 AGENDA

WEDNESDAY, MAY 4th

12:30 PM	<p>Lunch & Keynote – Canadian Multi-family Office Evolution Mindy Mayman, Richter Family Office</p> <p><i>The creation of centralized concerns providing a range of services to family offices (aka multi-family offices) many decades ago allowed certain families to gain access to opportunities and expertise that they could not have discovered nor financed perhaps on their own. It also created a cousin-class of professionals to those working in single family offices – ones who can see across various dynasties with unique and varied needs and synthesize solutions tailored to types of families and also to each one individually. As prosperous families grow in number, they seek out those with the ability to provide counsel just as those doing so are proliferating. This talk will discuss the state of advice today and where it is headed.</i></p>

2:45 PM	<p>Tête-à-tête meetings (4 x 15-minute 1:1 meetings)</p>
3:45 PM	<p>NowTalk – Making an Impact (In More Ways than One) Brad Crombie, Alquity Investment Management</p> <p><i>ESG investing is a hot topic (no pun intended) and unlike institutional investors that are investing a beneficiary’s monies, families are putting their own capital to work and many really, really care about where it goes and what it does in terms of their core values. There is a real passion here by many family members to ensure they do well and invest well and this talk will present one manager’s view on how to achieve laudable goals.</i></p>

9:00 AM	NowTalk – Arbing Crypto Mitchell Nicholson , KPMG <i>Over the last few months you may have come across many of the areas of investment in digital assets. OUR DATAROOM

ALL THE DATA REQUIRED TO MEET YOUR (INVESTMENT) MATCH

At the suggestion of one of our single family office members, we partnered with **SigmaSandbox** to create a dataroom to provide a more robust experience for managers and investors by getting performance and other information into the hands of prospective investors. We believe this free offering, exclusive to CAASA members, can be used in advance of the conference, during it, and afterward as much as one might like.

FOR INVESTORS

Simply create a login and you can search the database, choose any number of funds, introduce them into a portfolio approximating yours (more than 2,500 ETFs and 115 indices to choose from) to see how they might have affected its returns, and/or download tear-sheets of the fund to get portfolio and other data on it, the manager, and whom to contact to get more information. You can also use this to research managers who have invited you to meet or, if you like, extend your own invitations for a tête-à-tête (more on these on subsequent pages).

FOR MANAGERS

Uploading your performance and other information gets you on the radar of delegates at the conference and, as **SigmaSandbox** and CAASA will be making this available to more than 1,000 endowments, other significant investors, and wealth managers across North America and around the world with our ongoing events and those held in concert with other associations and the Government of Canada. It is simple and easy to do so and sets your fund apart with the opportunity to have many investors see how well you manage funds entrusted with you.
