WELCOME TO OUR MASH-UP OF PE & VC WITH DIGITAL ASSETS

Over the last few years, we have produced our Private Equity & Venture Capital Assembly and Digital Assets Global Exchange and recently we noted that these worlds are increasingly crossing-over (especially venture capital and digital assets/blockchain). We also continue to find that many investors are interested in blockchain and digital assets, but still require more foundational knowledge of this areas in order to get comfortable with the space. This conference looks to do all of this: bring together those from all three spheres of influence and provide much-needed digital learning. All content is subject to Chatham House Rule.

PENROSE

WE HAVE THREE DAYS OF CONTENT!

We invite all confirmed delegates to attend our **Blockchain & Digital Assets Fundamentals** sessions - all Day on Tuesday, Sept 27th. Thank you to **Penrose Partners** for their input and participation in these sessions!

On September 28th & 29th we have our panels et al (see next page for more) as well as a few hours of 1:1 meetings. The latter are booked via the platform - we add people as they register and there may be a backlog as we have many registrations each day - or you can meet folks on the day. Delegates are encouraged to populate their profile so that folks that might reach out to them or view them after receiving an invite to chat can get a good idea of who you are and what you do. You can add documents, videos, and product offerings as you like. We DO NOT provide contact information (phone #, email) to anyone for any reason, but the messages and invites that you send will be transmitted to the relevant party's email inbox. It's best to do some research and have a targeted ask or intro to make acceptance as easy as possible.

Calm down.

It's here. Canada's first IIROC regulated digital currency trading and custody solution for institutional investors. Thanks to FCC.

How predictable.

ABOUT CAASA

INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 65 webinars in 2021 and at least 70 planned in 2022 + 4-6 full-scale conferences each year. **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / cryptoassets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

MEMBER BENEFITS

Investors join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

Managers see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions where participation by the investors is strictly opt-in.

Service providers participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

Founders participate in our Founders' Pitch Competitions as well as other initiatives created to propel their fledgeling businesses forward.

NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

WHY JOIN?

As mentioned, we have attracted 330+ members over the last 4 years or so and the reasons are plentiful and varied. Whether an investor, manager, or service provider, some seek a group of like-minded individuals in the alts space to connect with on an on-going and (semi-)structured basis; others have a more commercial interest in that they are intent upon being aware of the newest trends in the industry and (providing they have one) presenting their knowledge to an audience of peers; and others have made their mark (or are on their way to doing so) and really just want to give back to a group of people that has done a great deal for them.

Whatever your motivation, if you're not in membership yet we'd love to hear from you!

FORMATS FOR THE DAYS

TÊTE-À-TÊTE MEETINGS

This is your opportunity to schedule one-on-one meetings with any conference delegate. All matching should be completed by noon on Monday, Sept 26th to ensure the scheduling software has time to confirm the meetings and each one is served up to you at the right time.

You can schedule as few or as many as you like. Over the years we received feedback that these are possibly the best part of our conferences as it gives folks an opportunity to connect away from the scheduled panels and meal times and really drill down into their respective interests. The software automatically suggests times that are mutually convenient for both parties.

Anyone can book a meeting with any other delegate. Please decline meetings that you might not be interested in or able to commit too - then the other party can invite another to chat. And if you are interested, you're free to connect via our messenger or email (we do not release delegate emails or other contact information, so you'll have to ask for it or send yours along to them and await a response).

All meetings will be scheduled via our conference app and web portal. Meetings should be completed by noon on Monday, Sept 26th to both parties accept the meeting. Delegates are free to have ad hoc chats as well, of course, during the course of any of the days at the venue.

TABLE TALKS & START-UP ROUND-UP

We do not sell paid-for speaking spots, preferring delegates to choose when they might like to hear from sponsors. Table Talks are 25-minute sessions where anywhere from 2 to 12 delegates can get a briefing on a topic and participate in an interactive discussion. As with all of our events, we refrain from pay-to-play and draw all speakers from membership and prefer audiences to opt-in to more niche discussions, as will be delivered at the Table Talks.

Attendees can choose up to two sessions out of those offered on Sept 28th (Table Talks) and Sept 29th (Start-up Round-up). **Titles/topics of each session will be published on our conference app and web portal, also where attendees will register for their desired sessions. This should be completed by noon on Monday, Sept 26th to ensure a table is not fully-booked, or delegates can simply sit at any of the open tables at those times.**

HIGHLIGHTED MEMBERSHIPS

SIGNATURE MEMBERS

As we continue to innovate in an effort to bring more value to members than ever before, we added an additional exposure category: Signature Member.

These members, including **Coinbase**, **Avenue Living Asset Management**, and **Amundi Asset Management**, are featured prominently at three of our signature conferences.

As is our tradition, we treat all members equally for our speaking opportunities (470 in 2020 and 500+ in 2021) and Signature Members are afforded the same propensity to speak on and moderate panels and participate in podcasts.

Any CAASA member this is interested in becoming a Signature Member should contact the CAASA office.

(START-UP) FOUNDER

We have had a great deal of interest from start-up founders to be involved with our events and initiatives over the last few months - especially as we are active in the family office / angel network and venture capital funds.

To this end, we have created a Founder category to cater to this type of member. We will also feature Founder members on our panels and podcasts and organize special events for them to connect with funding sources and source best practices and great ideas from peers and others.

The intent is to work with true start-ups and give them access to great content and connections and CAASA reserves the right to require certain companies that might be better categorized as managers or service providers - especially if they might be considered mature or with substantial backing - to be so categorized and pay the relevant fee.

SUMMIT POLICIES

PRIVACY & SECURITY

We do not release the names of individuals attending CAASA events - including to sponsors and speakers at events - although we may disclose the employers of attendees, except for those working at single family offices, which are redacted. For this gathering, of course, all delegates have access to the individuals' names and employers for the purpose of scheduling meetings and booking seats at Table Talks. However, **we never release the email addresses or phone numbers of attendees**; asking instead that folks reach out via the mobile app / web portal or other means such as corporate websites or services such as LinkedIn. We can pass on contact requests to another party, without any guarantee of a response.

If you receive an email or communication from any party offering the registration list or any contact information of any delegate, please let us know. You can rest assured that we did not release this information to anyone.

All of our sessions are strictly **Chatham House Rule** and we ask all delegates to refrain from using phone camera recordings and other archival methods as well as not tweeting or using other social media concerning any of the speakers, topics, or information communicated. Any communication should be broad and general and have absolutely no attribution of any notions to any speaker.

OUR DATAROOM

ALL THE DATA REQUIRED TO MEET YOUR (INVESTMENT) MATCH

At the suggestion of one of our single family office members, we partnered with **SigmaSandbox** to create a dataroom to provide a more robust experience for managers and investors by getting performance and other information into the hands of prospective investors. We believe this free offering, exclusive to CAASA members, can be used in advance of the conference, during it, and afterward as much as one might like.

FOR INVESTORS

Simply create a login and you can search the database, choose any number of funds, introduce them into a portfolio approximating yours (more than 2,500 ETFs and 115 indices to choose from) to see how they might have affected its returns, and/or download tear-sheets of the fund to get portfolio and other data on it, the manager, and whom to contact to get more information. You can also use this to research managers who have invited you to meet or, if you like, extend your own invitations for a tête-à-tête (more on these on subsequent pages).

FOR MANAGERS

Uploading your performance and other information gets you on the radar of delegates at the conference and, as **SigmaSandbox** and CAASA will be making this available to more than 1,000 endowments, other significant investors, and wealth managers across North America and around the world with our ongoing events and those held in concert with other associations and the Government of Canada. It is simple and easy to do so and sets your fund apart with the opportunity to have many investors see how well you manage funds entrusted with you.

TUESDAY, SEPTEMBER 27TH

8:30 AM	Breakfast & Registration
9:00 AM	Origin Story of Blockchain/BTC/Crypto Shaun Cumby , Arxnovum Investments Inc. Kerem Kolcuoglu , Penrose Partners Koleya Karringten , Canadian Blockchain Consortium <i>Ever wonder where crypto/digital assets came from? Why was it invented and has it fulfilled its purpose – or will it? These questions and more are covered in this session which delves deep into the origin story of digital assets and gives a peek as to where it might be headed.</i>
10:00 AM	Use cases of Tokens/Coins (ETH) Kerem Kolcuoglu , Penrose Partners Russell Starr , Valour Jonathan Han , VirgoCX Wealth <i>Many believe that all coins/tokens/digital assets are cryptocurrencies, but while Bitcoin is a cryptocurrency (and even that is up for debate from some), other digital assets such as Ethereum (or Ether, or ETH) are more new-fangled, distributed computers that can have many uses. This talk will set things straight in the audience's minds and set the stage for the next level of learning.</i>
11:00 AM	Custody & Staking Freddie Allen , Coinbase Kirk Emery , Figment <i>An investor's most important question (above risk/volatility and even return) is 'where is my money?'...aka return of capital. In the digital assets world, ownership is established on the blockchain, but translating this to the TradFi (Traditional Finance) world can be a challenge. Thankfully, we have a panel that will ameliorate this situation and help attendees get comfortable with digital assets custody.</i>
NOON	Luncheon Workshop - CAASA NFT & Your Wallet Mitch Nicholson , Garden City Advisory Inc <i>Mitch will walk the uninitiated (and those who might just be new to metaverse) through the simple steps to create a digital wallet - to which you can upload the coveted CAASA SuperWeek22 NFT (!).</i>
1:00 PM	Crypto Regulatory Battles – Here are Your Winners Fred Pye , 3iQ Digital Asset Management Lisa Durnford , Wealthsimple Crypto Didier Lavallee , Tetra Trust Company <i>AFollowing on from custody, regulation is a big deal in any industry and those (who are progressive) in the digital assets space are quickly getting up the curve on regulations – just as regulators are educating themselves about these new assets. This is your opportunity to hear the stories of how key players in the industry have made great strides in bridging the gap and received approval for their products/ services.</i>

TUESDAY, SEPTEMBER 27TH

2:00 PM	Cutting-edge Fireside to be Announced <i>We are clearing the last hurdles to bring you a hot-topic fireside in this time slot. Not ready at print date, but it will be in the online agenda.</i>
3:00 PM	NFTs & The Metaverse George Djuric , KPMG Andrew Kiguel , Tokens.com Zachary Friedman , GDA Group <i>Highlighting the speed of change in the industry, last year's Bootcamp only touched on NFTs and we had our first speaker on the Metaverse – and now both of these are much more mainstream. Many struggle with what these innovations could possibly mean for their businesses and personal/consumer life and this session is designed to answer those questions and more!</i>
4:00 PM	SuperWeek Launch Reception <i>Open to all delegates of any day!</i>

WEDNESDAY, SEPTEMBER 28TH

8:00 AM	Breakfast & Registration
8:45 AM	Breakfast Keynote Zoe Cruz , Menai Financial Group Koleya Karrington , Canadian Blockchain Consortium <i>The transition from TradFi to the digital assets world is difficult for some, but for others it's seen as more of a brand-new area to apply their experience and expertise to a fledgling industry. This can create conditions ripe for profit exploitation as well as the opportunity to work with regulators to create, rather than the trial and error that might have happened in TradFi over the last many years, legislation that fits the industry best – and from the start. Hear from someone who has gone from the pinnacle of financial services to a leading role in digital assets and learn where both industries are headed.</i>
9:30 AM	PE/VC – Allocating in Today's Market Alex Dauria , Aksia Spencer Greene , TSVC Mark Maybank , Maverix Private Equity John Fisher , Bridgeport Asset Management <i>For years, private equity investors have been chanting the mantra of 'dry powder' and 'sky-high valuations' while venture investors have been echoing the latter, but with a more invested portfolio (save cash earmarked for follow-ons). Now that some of the wind has been knocked out of a few markets, is this a good time to invest? Most know the inherent and unassailable benefits of vintage diversification in privates, but what are the macro trends that might propel this year's crop of PE and VC transactions into the plus (or plus-plus!) column when one looks back on them in 5-10 years time?</i>
10:15 AM	Health Break
10:30 AM	Table Talks Canadian Blockchain Consortium – Beyond 2022: The Next Year in Bitcoin Innovation Valour – Bridging Traditional Finance to Web3 and Decentralized Finance Sato Technologies – Bitcoin Mining stocks, a good idea? How Long will the Crypto Winter Last? Pender Ventures – #1: Building a Resilient Portfolio: Investing in high growth companies that are built to last; #2: The Future of Healthtech: How software and AI continue to transform healthcare Third Point – TBD VirgoCX – #1: Why PE/VCs are adding cryptocurrencies in their books; #2: Cryptocurrency Liquidity Explained Tech Cayman – The Cayman Islands: A Jurisdiction of Choice for Tech Companies

WEDNESDAY, SEPTEMBER 28TH

11:30 AM	Crypto & Web3 Venture Investing Victor Kuntzevitsky , Wellington Altus Wealth Management Chris Perkins , Coinfund Shubin Jha , Menai Asset Management Elliott Campbell , HarbourVest Partners <i>We organized a very popular webinar on this topic earlier in the year and now it's back with an updated panel that will provide commentary on the current state of crypto – and now Web3 – venture investing. With the area in flux as much as it is, we believe this panel will be an excellent way for those new and experienced in the space to get and keep up to speed with its evolution.</i>
12:15 PM	Lunch
12:30 PM	Luncheon Keynote Robert Schwartz , Third Point Ventures Adam Buzanis , CAAT Pension Plan <i>This fireside will bring together many of the themes we have during the entire conference and allow the audience an glimpse into how the market for private equity and venture capital got to where it is, what's happening now, and where it is headed over the next short to long while. A real treat to have these speakers together – not to be missed!</i>
1:30 PM	Tête-à-tête meetings (2 x 30-minute 1:1 meetings)
2:30 PM	NowTalk – Cryptocurrencies and Digital Assets in Diversified Portfolios Keith Black , RIA Channel Charlie Morris , CMCC Global <i>Where and how are investors allocating to cryptocurrencies and digital assets? We will explore the digital assets landscape, including buying coins directly, investing in public funds, as well as hedge funds and venture capital.</i>
3:00 PM	Bulls & Bears – Key events of 2022 Kerem Kolcuoglu , Penrose Partners Eric Richmond , Coinsquare Tanya Woods , Futurity Partners Jillian Friedman , Ether Capital <i>2022 has been a busy year thus far – and it's not over yet! Unlimited upside at the beginning of the year was replaced by a Crypto Winter in the spring/summer and who knows where we will end up as we head into 2023. Well, this panel might have some idea. Join us to hear their views on the year and what the rest of it might bring.</i>
3:45 PM	Health Break

WEDNESDAY, SEPTEMBER 28TH

4:00 PM	<p>Digital Assets – a serious asset class Savvas Mallas, Stonehage Fleming</p> <p><i>Savvas Michael Mallas is a Partner for Family Office at Stonehage Fleming, one of the largest independent multi-family offices in the world. He heads up the firms Digital Asset Offering, supporting clients around the world who wish to introduce digital assets into their personal and fiduciary structures.</i></p> <p><i>He shares his insights into the examples of the risk based approach which he has supported clients in approaching the asset class, and treating digital assets as any other asset, with the same discipline towards risk. In doing so he has been able to support clients in investing in so many different kinds of digital assets from blockchain, NFTs, early stage tokens and funds.</i></p>
4:45 PM	<p>Institutions Allocating to Crypto Anthony Bassili, Coinbase Institutional Americas Kevin Blank, State of Wisconsin Investment Board (SWIB)</p> <p><i>Everyone is doing it, but no one is talking about it...or is it the other way 'round? Crypto has been a salacious subject of late as the cryptocurrencies/tokens have dropped in price and some rather high-profile bankruptcies have plagued the headlines; adding even more trepidation for investors who might see its adoption and perhaps eventual domination of their portfolio/thinking. No matter the motivation, crypto has become (for some) a four letter word, even for true adherents who value its investment case almost as much as they value their role in the organization; and for naysayers, these 'fluctuations' have seemingly proved their earlier points. This talk will centre around how investors are wading through the bad news and making up their minds on allocations to these assets going forward.</i></p>
5:30 PM	<p>Networking Reception <i>Open for all conference delegates</i></p>
7:30 PM	<p><i>End of Day</i></p>

THURSDAY, SEPTEMBER 29TH

8:30 AM	<p><i>Breakfast & Registration</i></p>
9:00 AM	<p>Allocating to Private Equity Fireside Drew Schardt, Hamilton Lane Jason Campbell, Eckler Investment Consulting</p> <p><i>This fireside brings together two experienced allocators who will explain their views of the private equity markets and what investors can expect in the next while, based on their respective vantage points, observations, and assumptions. Which stage of the economy and how this affects private equity (and the associated de-coupling that can occur) will also be discussed as well as where and how they are positioning their portfolios for optimal near and further-term performance.</i></p>
9:45 AM	<p>SFOs allocating to PE/Venture Neal Gupta, KiwiTech Harjit Singh, Xurge Capital Partners, LLC Wendy Diamond, Women's Entrepreneurship Day Organization (WEDO) Drew Colaiezzi, McPike Global Family Office</p> <p><i>A real treat, we have four single family office folks joining us for this moderated roundtable where they will discuss how they allocate to private equity, with a focus on venture capital. Many (if not all) family offices owe their existence to a well-played venture play (aka the founder started a company that happened to succeed very well) and how they plan to replicate this 'luck', or not, will also emerge as topic of discussion between these seasoned investors.</i></p>

10:45 AM	<p><i>Tête-à-tête meetings (1 x 30-minute 1:1 meetings)</i></p>
11:15 AM	<p>Heading for The Exits – Unlocking value on the way out Clelia Zacharias, LGT Capital Partners (USA) Inc. Ajay Gopal, Framework Venture Partners Bradley Mashinter, Fiera Comox Partners</p> <p><i>Getting in can be easy, but making one's way to the exit in a profitable manner can wreck havoc on a portfolio in any asset class: but especially privates. How one plans to cash out can affect timing, pricing, and complexity, as well as flexibility should circumstances change. This panel explains the options available to investors on both sides of the transaction: those selling and those who might be buying assets from a winding-down fund (or one that is selling for any reason). We'll be sure to explain the many new vocab words as well, as these are new to some investors.</i></p>

SPEAKER BIOGRAPHIES

Fred Pye

Chairman and Chief Executive Officer
3iQ Digital Asset Management

Frederick Pye, Chairman and CEO: Fred kick-started his career as a precious metal and foreign exchange trader at Guardian Trust. In 1986, they were the first to list gold, silver, and platinum certificates on the Montreal Stock Exchange. Fred later joined Fidelity Investments, where he was part of a team that saw its assets rise from 85 million to over 7.5 billion. Through the launch of creative and exotic investment products, Fred started his own firm, which worked diligently with Canadian regulatory bodies to establish the first mutual fund in Canada that was allowed to take short positions. Finally, as founder and CEO of 3iQ, he and his team worked cooperatively with the Ontario Securities Commission for the last 4 and a half years to launch the first regulated Bitcoin fund in North America. In a landmark victory, 3iQ was given the green light by the regulator to file a prospectus and apply to list “The Bitcoin Fund” on a Canadian stock exchange. 3iQ is now Canada’s largest digital asset investment fund manager with more than C\$3.5 billion in assets under management.

Mr. Pye obtained a master’s in business administration from Concordia University and is a member of the Board of the Anglican Funds and the West Island Youth Residence.

Erik Richmond
