# FORMATS & POLICIES

## TABLE TALKS

*Delegates will have the opportunity to choose two sessions lead by our sponsors. We do not sell paid-for speaking spots, preferring delegates to choose when they might like to hear from sponsors.*

Table Talks are 30-minute sessions where anywhere from 2 to 12 delegates can get a briefing on a topic and participate in an interactive discussion. As with all of our events, we refrain from pay-to-play and draw all speakers from membership and prefer audiences to opt-in to more niche discussions, as will be delivered at the Table Talks.

## MEAL, RECEPTIONS, & EXCURSIONS

All delegates are encouraged to meet as many people as possible - we have made this event purposefully intimate to allow for a great deal of interaction and networking. Our schedule includes multiple meals, breaks, and receptions where all can connect as well as a great deal of 'free time' in the afternoons where folks can meet up and enjoy all that Cayman has to offer. These include: the Turtle Farm, (across the road from it) Swim with the Dolphins, Deep Sea Fishing, Snorkleing & Guided Spearfishing (only Caymanians can partake in actual spearfishing), Botanical Gardens, Golf, Shopping & Fine Dining at Camana Bay, Horseback Riding, plus many others.

Dart and the CAASA team are happy to assist with ideas and connecting delegates with providers of transport and activity provisions. All excursions (save the Stingray City one included with lunch) are at participant expense.

## PRIVACY & SECURITY

**Typically, we do not release the names of individuals attending CAASA events** - including to sponsors and speakers at events - although we may disclose the employers of attendees, except for those working at single family offices which are redacted. **We never release the email addresses or phone numbers of attendees;** asking instead that folks reach out personally at the event or via other means such as corporate websites or services such as LinkedIn. We can pass on contact requests to another party (without any guarantee of a response).

**All of our sessions are strictly Chatham House Rule** and we ask all delegates to refrain from using screenshots and other archival methods as well as not tweeting or using other social media concerning any of the speakers, topics, or information communicated. Any communication should be broad and general and have absolutely no attribution of any notions to any speaker.

# ABOUT CAASA

## INCLUSIVE, ACTIVE, AND PAN-ALTERNATIVE

The Canadian Association of Alternative Strategies & Assets (CAASA) was created in response to industry requests for a national group to represent the Canadian alternative investment participants, including investors, asset managers, and service providers. CAASA is **inclusive** in that it welcomes participation from all companies active in the space as well as select individuals (those with investors) who might want to participate in committees and working groups - or simply attend member events - without their employer being a member of the association. CAASA is very **active** in both committees & groups and events: 45+ events, including this conference, have occurred or are planned in 2019. **Pan-alternative**, for CAASA, encompasses all alternative strategies and assets including: hedge funds / alternative trading strategies, private and public real estate (funds and direct), private lending, private equity, development & project finance, digital assets / crypto-assets, weather derivatives & cat bonds, and all aspects of diligence, trading, structuring, dealing, and monitoring alternatives in a stand-alone portfolio and as part of a larger investment strategy.

## MEMBER BENEFITS

**Investors** join CAASA to be a part of a formal network of pension plans, foundations, endowments, sovereign wealth funds, and family offices to discuss ideas, strategies, and operational issues particular to their businesses - all within a closed group where managers and service providers may or may not be included, depending on the forum.

**Managers** see the association as a way to connect with peers, investors, and service providers to speak to fund structuring, sales & marketing, and regulatory issues. CAASA is not a capital introduction platform, but we do create forums where investors and managers can meet organically or via structured meeting sessions, such as at this conference, where participation by the investors is strictly opt-in.

**Service providers** participate in our events and working groups as well as assist in the production of thought leadership pieces which provide relevant information to both association members and the industry and investing public at large.

**Founders** receive exposure via our member directory, participating in our various Founders' Pitch Competitions, speaking on panels, taking part in podcasts, and being involved in a very active network.

## NATIONAL AND GLOBAL

CAASA believes that the Canadian alternatives industry has a great deal to offer Canadians and the global community. The *Canadian Model of Pension Management* is well-known for its large alternatives focus, managed in-house in many cases with substantial allocations to external managers as well. Canadian investment managers operate in a robust regulatory regime (of hedge fund managers) that is becoming the norm across the globe and a stable banking back-drop that provides solace for investors as well as opportunities for managers. Talent in investment management (approximately 10% of all CFA charterholders reside in Canada) as well as newer areas such as digital assets and robo-advisory services are a differentiator. Of course, Canadian investors and managers are keen to learn of best practices in operations and portfolio management from their global peers.

**WALTER SCHROEDER**  
**FOUNDER, DBRS**  
**COLONIAL HOUSE CAPITAL (SFO)**

Walter Schroeder's parents were immigrants from the Ukraine, where they lived in a German enclave while keeping their culture and heritage alive for more than a hundred years. During the Russian Revolution, both sides of his family escaped persecution by immigrating to Canada. They had survived the Communist revolution but lost all their wealth. When Walter was born in December 1941 in Winnipeg, Manitoba, his father was working as a caretaker of a private college and his mother cleaned houses for the rich people of Winnipeg.

"Those difficult times definitely had an effect on my father," says Walter. 'He was frugal and sought stability above risk. But he was smart and a very skilled tradesman. He could do anything from plumbing to carpentry. He was proud of our house, and he kept it in good condition. We were poor, but we did not know we were poor because we had plenty of relatives around us.'

Both of Walter's parents came from large families. Their native language was German, and Walter grew up with dozens of cousins, who all spoke German. 'I didn't learn English until I was in the first grade,' he says. 'But education was very important in my family. I knew that would be my way out of poverty. I can remember hearing once that when a son walks in his father's footsteps, that means he is like his father. I loved my father, but I wanted much more than what he could give us. One day, I was walking behind him in the snow, and I purposefully made my footsteps fall away from his because I was determined my life would be different and did not want to follow in his footsteps.'

Walter's maternal relatives were largely entrepreneurs in their day. They became businessmen when they grew up in Canada, becoming small-time entrepreneurs. By the time he was in the eighth grade, getting a university education was Walter's number-1 goal. He became interested in the stock market and taught himself the principles of portfolio management. 'I told myself,' he says, 'that I wanted to become the best equity analyst in North America.'

Walter obtained a bachelor of commerce degree with honors from the University of Manitoba, and then achieved his MBA from McMaster University. He worked evenings until he was licensed as a certified public accountant (CPA) as well as a chartered financial analyst (CFA).

This panel will brief the audience on the space, where they are seeing value, and where one should focus going forward.</i>

# HIGHLIGHTED MEMBERSHIP CATEGORIES

## SIGNATURE MEMBERS 2023

As we continue to innovate in an effort to bring more value to members than ever before, we added an additional exposure category: Signature Member.

These members, including **CIBC Mellon**, **Preqin**, **Hedgefacts**, **Avenue Living Asset Management**, and **Amundi Asset Management**, are featured prominently at three of our signature conferences.

As is our tradition, we treat all members equally for our speaking opportunities and Signature Members are afforded the same propensity to speak on and moderate panels and participate in podcasts.

Any CAASA member this is interested in becoming a Signature Member should contact the CAASA office.

## (START-UP) FOUNDER

We have had a great deal of interest from start-up founders to be involved with our events and initiatives over the last few months - especially as we are active in the family office / angel network and venture capital funds.

To this end, we have created a Founder category to cater to this type of member. We will also feature Founder members on our panels and podcasts and organize special events for them to connect with funding sources and source best practices and great ideas from peers and others.

The intent is to work with true start-ups and give them access to great content and connections and CAASA reserves the right to require certain companies that might be better categorized as managers or service providers - especially if they might be considered mature or with substantial backing - to be so categorized and pay the relevant fee.

*Founder, President and Lead Portfolio Manager*  
Swan Investments (SFO)

Randy Swan is the founder, CEO and Lead Portfolio Manager of Swan Global Investments and the creator of the proprietary Defined Risk Strategy (DRS).

In 1997, recognizing the limitations of Modern Portfolio Theory and the difficulty of market timing and picking stocks, Randy developed the Swan Defined Risk Strategy to help investors redefine the risk/return dynamic of long-term investing, seeking to achieve capital appreciation while seeking protection from large losses.

As Lead Portfolio Manager of Swan and the DRS, Randy oversees and manages the strategy across numerous product portfolios and asset classes such as large cap stocks, emerging market stocks, foreign developed stocks, small cap stocks, long-term bonds, gold, and more. Across each product/portfolio, the DRS strategy seeks to define the risk, reduce volatility, limit large losses and match or exceed the long-term performance of the stock market over an entire investment cycle (peak to trough). This is all from the perspective of helping investors to achieve a more consistent and smoother longer-term investment experience.

Before founding Swan, Randy was a senior manager for KPMG's Financial Services Group, primarily working with risk management and insurance providers as a tax consultant. His experience at KPMG helped him in designing the Defined Risk Strategy, as he was able to see firsthand how insurance and risk managers diminished risk.
